

DHAVAL DABHI

Ahmedabad, Gujarat, India | 📞 9979209400 | dhavaldabhi1907@gmail.com

PROFESSIONAL SUMMARY

Highly motivated Cloud Engineering postgraduate student specializing in **AWS cloud architecture, containerization (Docker & Kubernetes)**, and **CI/CD automation**. Experienced in designing scalable, cost-efficient, and production-ready cloud solutions. Possesses foundational knowledge of Artificial Intelligence, including Large Language Models (LLMs). Seeking an entry-level Cloud/DevOps role to apply technical skills in real-world enterprise environments.

TECHNICAL SKILLS

- **Cloud Platforms:** AWS (EC2, S3, RDS, IAM, VPC, CloudFront, CloudWatch)
- **DevOps & Tools:** Docker, Kubernetes, Jenkins, GitHub Actions, Git, GitHub
- **Operating Systems:** Linux (Ubuntu)
- **Databases:** MySQL, MongoDB (Basic)
- **Programming:** Python (Basic)

PROJECTS

CI/CD Pipeline for Static Website using GitHub Actions

- Designed and deployed a static website using an automated CI/CD pipeline.
- Implemented GitHub Actions workflows for build and deployment automation.
- Configured continuous integration and continuous deployment to hosting platforms (GitHub Pages / AWS S3).
- Reduced manual deployment effort and improved release efficiency.

Static Website Hosting using AWS (S3 & CloudFront)

- Hosted a static website on Amazon S3 integrated with CloudFront CDN for optimized global delivery.
- Configured IAM roles and bucket policies for secure access control.
- Implemented caching strategies and security headers for performance and protection.
- Optimized global content delivery using CDN distribution.

EDUCATION

- **Integrated B.Sc. & M.Sc. in Cloud & Application Development**

Gujarat University | 2022 – 2027 (Expected)

- **Higher Secondary Certificate (HSC)**

Gyanmandir Vidhyapith Targhara | 2021 – 2022

- **CERTIFICATIONS**

- Introduction to Large Language Models – IBM SkillsBuild (Feb 2026)

LANGUAGES

- Gujarati (Native), English (Professional Working Proficiency), Hindi (Fluent)
